eFLASHER VI

Light and convenient, the **eFLASHER VI** is ideal for every deaf videoconference user. **eFLASHER VI** model (EFL600) provides one (1) flash for each regular telephone ring and double-flashes (2) for each Broadband ring for a distinguished noticeable flashing signal lamp. Whether you are away from your T.V. or telephone and cannot hear the ringing sound, the **eFLASHER VI** is designed to quickly alert users to any IP-VRS, VRS, or videochat signal calls, plus regular calls for TTY.   Plus, the **eFLASHER VI** operates a built-in X-10 wireless transmitting system feature. Another **eFLASHER VI** model (EFL601) is available for those users who does not want a flasher feature for TTY calls. The **eFLASHER VI** works with D-Link (DVC-1000), Sorensen (VP-100), or any other similar products that have the cadence ringing output port jack available.
